Comments:

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: The UAA was conducted in June 2005 and no WBCR was observed. Although 6 sites were evaluated, only 5 were on the classified portion. The stream did not meet the maximum depth criteria in 1 of 5 sites and the average depth criteria at 1 of 5 sites evaluated. No interviews were conducted. Fishing tackle was noted. Because of the overall shallow depth of the stream, the committee recommends removing the WBCR designation. However, since there was evidence of fishing at the stream the committee recommends this stream be considered for SCR.

**Committee Recommendation:** ☐ Retain Use ☐ Modify Use ☒ Remove Use ☐ Inconclusive
